OMNI Auxiliary AR/Billing: Chemistry & Biochemistry
Chemistry Stockroom & Chemistry Labs

Placing an Order

All orders are placed with the Stockroom Manager or appropriate Facility Director. For more information, please visit the Chemistry Research & Support Facilities webpage or contact the Stockroom Manager or Facility Director. Please be aware that a Purchase Order serves to encumber funds and enable internal charges. **A Purchase Order does not serve to place an order with this or any selling auxiliary.**

Creating a Requisition

This requisition is very much like other blanket purchase orders departments are accustomed to. Review the below step-by-step guide to ensure the appropriate vendor and categories are selected.

1. Determine your requisition amount as described separately on the Controller’s Office Auxiliary Accounting training materials page. Your department’s Budget Account Manager may have already performed this task for you.
2. First, decide which vendor and category code(s) you will use. Chemistry has several vendors and category codes to accommodate the variety of purchases that departments make from this selling auxiliary area. They are listed here:

4. You will land on the **Requisition Settings** page. Click the magnifying glass to the right of the “Supplier” field to look up your supplier.
5. Search for your supplier. All internal suppliers will begin with “AUX.” Type “AUX” in the Supplier ID field and select “Find.” The search results will show a list of internal suppliers. Select the appropriate supplier.

   a. You must enter a supplier that begins with AUX. For this requisition, the appropriate supplier is one of the below:

e. Add notes as needed in the “Additional Information” field. This information is for your research purposes only.

13. When ready, select “Add to Cart” at the bottom of the page.

14. You will see a screen for a new, blank line. Create additional lines as needed for other category codes for this auxiliary. Please group all activity per category code onto one line versus spreading it out over multiple lines when the category code is the same unless you are adding multiple budget combos in the same category code. Note: projects must be on their own requisitions.

15. When lines for all applicable goods/services have been added and you are ready to check out, select “Checkout” at the top of the page:
16. You will be returned to the **Checkout – Review and Submit** page.

17. Flag all of the requisition lines as “Amount Only” as shown below. **This is important: without this step, your PO encumbrance will not be correct after your PO is expended.**

   f. Select the icon under the “Details” column for the line:

   g. On the “Line Details” page, select the checkbox for “Amount Only”.

   h. Scroll to the bottom of the page and select “OK”.

   i. A message will pop up indicating that your quantity will be set to 1; this is ok. Select “Yes”.

   ![Checkout page](image)
j. Repeat steps a – d for all lines.

18. Enter your accounting information (department ID, fund, project) as shown below:

k. Expand the lines using the small grey arrows and then select the “Chartfields 2” tab:

l. Enter the appropriate department ID, fund and project combination in the Chartfields 2 tab.

i. **NOTE:** A project must be on its own requisition. A requisition can not include multiple projects or a project and multiple non-project funds.

ii. A requisition can include multiple non-project combinations (including optional chartfields).

m. Repeat steps 18) a and 18) b for all lines.

19. When reviewed and ready to submit for approval, click **Save and Submit** at the bottom of the page:
20. The standard approval workflow will be initiated. Once the requisition is fully approved, it will become a purchase order and will be dispatched to the vendor when the applicable system processes run throughout the day.
