OMNI Auxiliary AR/Billing: ITS

Placing an Order

All new orders are placed through the ITS Service Desk website. Please be aware that a Purchase Order serves to encumber funds and enable internal charges. **A Purchase Order does not serve to place an order with ITS.**

Creating a Requisition

This requisition is very much like other blanket purchase orders departments are accustomed to. Review the below step-by-step guide to ensure the appropriate vendor and categories are selected.

1. Determine your requisition amount as described separately. Your department’s Budget Account Manager may have already performed this task for you.

2. Navigate to page: [https://my.fsu.edu](https://my.fsu.edu) > “FI” > Main Menu > eProcurement > Requisitions as shown below:
3. You will land on the **Requisition Settings** page. Click the magnifying glass to the right of the “Supplier” field to look up your supplier.

4. Search for your supplier. All internal suppliers will begin with “AUX.” Type “AUX” in the Supplier ID field and select “Find.” The search results will show a list of internal suppliers. Select the appropriate supplier.

   a. You must enter a supplier that begins with AUX. For this requisition, the appropriate supplier is:

   i. AUX0000009 FSU Information Technology Services

5. The system will bring you back to the **Requisition Settings** page with the supplier information included.
6. Choose a Unit of Measure. For internal requisitions, always choose “EA.”

7. Enter a due date. For year-long, open ended PO’s such as what would be typical for this line of business, use 6/30 of the appropriate fiscal year.
8. If you receive the following warning message after entering the date, click “OK”.

9. When finished, select “OK” at the bottom of the screen.

10. You will be returned to the Create Requisition Page. Select “Special Requests” to begin adding the individual lines for your requisition (if you are directed to the Requisition Settings page again after selecting Special Requests, click “OK” to proceed).
11. Create line(s) for your services as appropriate.
   a. Enter the item description as desired.
   b. Enter Price & Quantity:
      i. Price: equal to the amount you plan to spend for the PO duration
      ii. Quantity: 1 – Note: quantity should always equal 1
   c. Search for your Category Code(s). Type “AUX_ITS” into the Category field, and then select the magnifying glass to search for ITS category codes. It is very important that you select the appropriate internal category code.
      i. For ITS PO’s, choose from the following Category Codes as shown below:

   d. Add notes as needed in the “Additional Information” field. This information is for your research purposes only.
12. When ready, select “Add to Cart” at the bottom of the page.

13. You will see a screen for a new, blank line. Create additional lines as needed for other ITS category codes. For example, add a line for cellular services or add lines for additional budgets under your area of responsibility (note: projects must be on their own requisitions).
14. When lines for all applicable ITS services have been added and you are ready to check out, select “Checkout” at the top of the page:

![Checkout button on the Create Requisition page]

15. You will be returned to the Checkout – Review and Submit page.

16. Flag all of the requisition lines as “Amount Only” as shown below. This is important: without this step, your PO encumbrance will not be correct after your PO is expended.
   a. Select the icon under the “Details” column for the line:

![Details icon highlighted on the Requisition Lines page]

   b. On the “Line Details” page, select the checkbox for “Amount Only”.

![Amount Only checkbox on the Line Details page]
c. Scroll to the bottom of the page and select “OK”.

d. A message will pop up indicating that your quantity will be set to 1; this is ok. Select “Yes”.

e. Repeat steps a – d for all lines.

17. Enter your accounting information (department ID, fund, project) as shown below:

a. Expand the lines using the small grey arrows and then select the “Chartfields 2” tab:
b. Enter the appropriate department ID, fund and project combination in the Chartfields 2 tab.

   i. **NOTE: A project must be on its own requisition. A requisition can not include multiple projects or a project and multiple non-project funds.**

   ii. A requisition can include multiple non-project combinations (including optional chartfields).

   c. Repeat steps a and b for all lines.

18. When reviewed and ready to submit for approval, click **Save and Submit** at the bottom of the page:
