OMNI Auxiliary AR/Billing: FSU Coastal & Marine Lab

Placing an Order

All new orders are placed through the FSU Coastal & Marine Lab Website. Please be aware that a Purchase Order serves to encumber funds and enable internal charges. **A Purchase Order does not serve to place an order with this or any selling auxiliary.**

Creating a Requisition

This requisition is very much like other blanket purchase orders departments are accustomed to. Review the below step-by-step guide to ensure the appropriate vendor and categories are selected.

1. Determine your requisition amount as described separately on the Controller’s Office Auxiliary Accounting training materials page. Your department’s Budget Account Manager may have already performed this task for you.

2. Navigate to page: https://my.fsu.edu > “FI” > Main Menu > eProcurement > Requisitions as shown below:
3. You will land on the **Requisition Settings** page. Click the magnifying glass to the right of the “Supplier” field to look up your supplier.

![Requisition Settings screenshot]

4. Search for your supplier. All internal suppliers will begin with “AUX.” Type “AUX” in the Supplier ID field and select “Find.” The search results will show a list of internal suppliers. Select the appropriate supplier.

   a. You must enter a supplier that begins with AUX. For this requisition, the appropriate supplier is:

   i. AUX0000027 FSU Coastal & Marine Lab
5. The system will bring you back to the **Requisition Settings** page with the supplier information included.
6. Choose a Unit of Measure. **For internal requisitions, always choose “EA.”**

7. Enter a due date. **For year-long, open ended PO’s, use 6/30 of the appropriate fiscal year. You should use the project end date if the project ends before the end of this fiscal year.**
8. If you receive the following warning message after entering the date, click “OK”.

![Message]

9. When finished, select “OK” at the bottom of the screen.

10. You will be returned to the Create Requisition Page. Select “Special Requests” to begin adding the individual lines for your requisition (if you are directed to the Requisition Settings page again after selecting Special Requests, click “OK” to proceed).
11. Create line(s) for your services as appropriate.
   a. Enter the item description as desired.
   b. Enter Price & Quantity:
      i. Price: equal to the amount you plan to spend for the PO duration
      ii. Quantity: 1 – **Note: quantity should always equal 1**
   c. **Search for your Category Code(s).** Type “AUX_MARINE” into the Category field, and then select the magnifying glass to search for Marine Lab category codes. It is very important that you select the appropriate internal category code.
      i. For Marine Lab PO’s, choose from the following Category Codes as shown below:

<table>
<thead>
<tr>
<th>Category Code</th>
<th>Description</th>
<th>Detail</th>
<th>Expense Account</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUX_MARINE0000001</td>
<td>Marine Lab Rentals - Vehicle</td>
<td>FSU Coastal &amp; Marine Lab vehicle rentals (non-travel)</td>
<td>741871</td>
</tr>
<tr>
<td>AUX_MARINE0000002</td>
<td>Marine Lab Supplies - Fuel</td>
<td>FSU Coastal &amp; Marine Lab supplies including fuel</td>
<td>741391</td>
</tr>
<tr>
<td>AUX_MARINE0000003</td>
<td>Marine Lab Usage Fees</td>
<td>Marine Lab Usage fees (Labs, Wetlabs)</td>
<td>741881</td>
</tr>
<tr>
<td>AUX_MARINE0000004</td>
<td>Marine Lab Rentals – Housing</td>
<td>FSU Coastal &amp; Marine Lab Rentals - Housing</td>
<td>741741</td>
</tr>
<tr>
<td>AUX_MARINE0000005</td>
<td>Marine Lab – Training</td>
<td>FSU Coastal &amp; Marine Lab Training including seminars, conferences, webcasts and other education/training services attended by employees.</td>
<td>740272</td>
</tr>
<tr>
<td>AUX_MARINE0000006</td>
<td>Marine Lab Travel In-State</td>
<td>FSU Coastal &amp; Marine Lab in-state travel charges from University-related travel as reported on employee expense reports</td>
<td>740501</td>
</tr>
<tr>
<td>AUX_MARINE0000007</td>
<td>Marine Lab Travel – Out of State</td>
<td>FSU Coastal &amp; Marine Lab out-of-state travel charges from University-related travel as reported on employee expense reports</td>
<td>740521</td>
</tr>
</tbody>
</table>
d. Add notes as needed in the “Additional Information” field. This information is for your research purposes only.

12. When ready, select “Add to Cart” at the bottom of the page.

13. You will see a new, blank line. You may choose to add additional lines if needed. Please group all activity per category code onto one line versus spreading it out over multiple lines when the category code is the same unless you are adding multiple budget combos in the same category code.
14. When lines for all applicable Marine Lab services have been added and you are ready to check out, select “Checkout” at the top of the page:

![Checkout button screenshot](image1)

15. You will be returned to the **Checkout – Review and Submit** page.

16. Flag all of the requisition lines as “Amount Only” as shown below. **This is important: without this step, your PO encumbrance will not be correct after your PO is expended.**

   a. Select the icon under the “Details” column for the line:

   ![Details icon screenshot](image2)

   b. On the “Line Details” page, select the checkbox for “Amount Only”.

   ![Amount Only checkbox screenshot](image3)

   c. Scroll to the bottom of the page and select “OK”.

Office of the Controller

Questions? Contact: ctl-auxiliaryaccounting@fsu.edu
d. A message will pop up indicating that your quantity will be set to 1; this is ok. Select “Yes”.

![Message]

The quantity will be set to 1 for an amount only line. The system will reprice the line. Continue? (10150,238)

The Requisition quantity will be set to 1 for an amount only line, the system will reprice the requisition line for you.

![Yes] ![No]

e. Repeat steps a – d for all lines.

17. Enter your accounting information (department ID, fund, project) as shown below:

a. Expand the lines using the small grey arrows and then select the “Chartfields 2” tab:
b. Enter the appropriate department ID, fund and project combination in the Chartfields 2 tab.
   
   i. **IMPORTANT**: A project must be on its own requisition. A requisition can not include multiple projects or a project and multiple non-project funds.
   
   ii. **Note**: A requisition can include multiple non-project combinations (including optional chartfields).

**Accounting Lines**

<table>
<thead>
<tr>
<th>Dept</th>
<th>Fund</th>
</tr>
</thead>
<tbody>
<tr>
<td>107000</td>
<td>110</td>
</tr>
</tbody>
</table>

**Selecting Dept and Fund**

c. Repeat steps a and b for all lines.

18. When reviewed and ready to submit for approval, click **Save and Submit** at the bottom of the page:

![Save and Submit Button](image)

19. The standard approval workflow will be initiated. Once the requisition is fully approved, it will become a purchase order and will be dispatched to the vendor when the applicable system processes run throughout the day.
