

## Concur Connected Apps

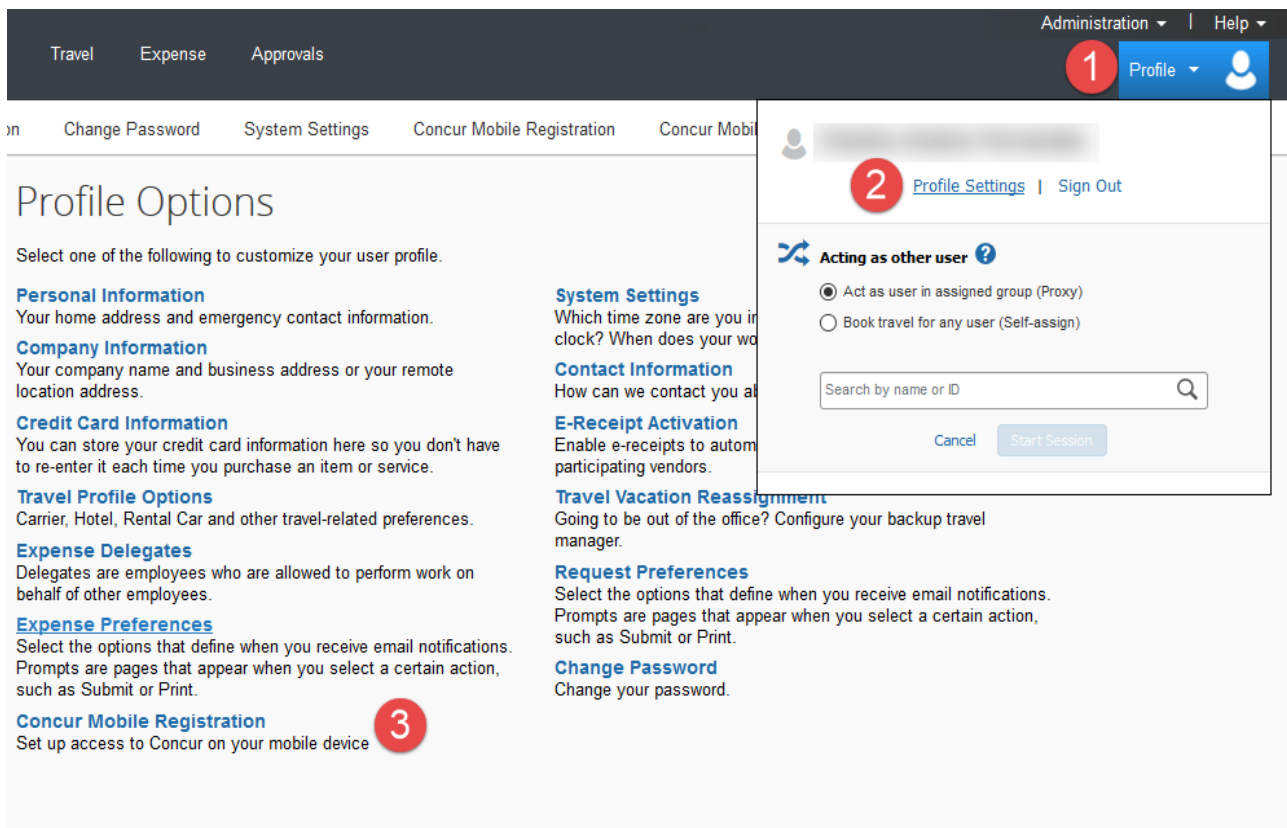

**Purpose:** To take full advantage of the functionality in the Concur application, we recommend that you download the following three applications onto your smartphone or mobile device. These are optional, but provide convenience to users.

1. **Concur Mobile** allows a user to manage trips and expenses. Users can collect data for an Expense Report and submit it, or approve an employee’s Expense Report.
2. **Expenselt** is a complementary app to Concur Mobile. While Concur Mobile allows users to take pictures of receipts, Expenselt has the ability to create the expense line item and match the receipt. If a travel card is used, it will match the travel card transaction, as well.
3. **Triptit Pro** organizes travel plans putting all trip information in one place. The app will provide the user with updates during travel on things like gate changes, cancellations, etc., and provides the ability to select alternate flights when plans have changed or a flight has been cancelled. Family members can be provided visibility to travel plans by including them as part of the user’s “**inner circle**”. Consider it a personal travel assistant while on the road.
