OMNI Auxiliary AR/Billing: Chemistry & Biochemistry
Chemistry Stockroom & Chemistry Labs

Placing an Order

All orders are placed with the Stockroom Manager or appropriate Facility Director. For more information, please visit the Chemistry Research & Support Facilities webpage or contact the Stockroom Manager or Facility Director. Please be aware that a Purchase Order serves to encumber funds & enable internal charges. **A Purchase Order does not serve to place an order with this or any selling auxiliary.**

Creating a Requisition

This requisition is very much like other blanket purchase orders departments are accustomed to. Review the below step-by-step guide to ensure the appropriate vendor & categories are selected.

1. Determine your requisition amount as described separately on the Controller’s Office Auxiliary Accounting training materials page. Your department’s Budget Account Manager may have already performed this task for you.

2. First, decide which vendor & category code(s) you will use. Chemistry has several vendors & category codes to accommodate the variety of purchases that departments make from this selling auxiliary area. They are listed here:

</tr>
<tr>

3. Navigate to page: [https://my.fsu.edu > “FI” > Main Menu > eProcurement > Requisitions](https://my.fsu.edu) as shown below:
4. You will land on the **Requisition Settings** page. Click the magnifying glass to the right of the “Supplier” field to look up your supplier.

5. Search for your supplier. All internal suppliers will begin with “AUX.” Type “AUX” in the Supplier ID field & select “Find.” The search results will show a list of internal suppliers. Select the appropriate supplier.

   a. You must enter a supplier that begins with AUX. For this requisition, the appropriate supplier is one of the below:

<table>
<thead>

6. The system will bring you back to the Requisition Settings page with the supplier information included.

7. Choose a Unit of Measure. **Always choose “EA” for internal requisitions.**
8. Enter a due date. For year-long, open ended PO’s such as what would be typical for this line of business, use 06/30 of the appropriate fiscal year.

9. If you receive the following warning message after entering the date, click “OK”.

![Warning message]

The date entered is either more than 30 days in the past or 30 days in the future. This is not normally true for this date. Either acknowledge that the date is OK, or correct the entered date.

10. When finished, select “OK” at the bottom of the screen.

11. You will be returned to the Create Requisition Page. Select “Special Requests” to begin adding the individual lines for your requisition (if you are directed to the Requisition Settings page again after selecting Special Requests, click “OK” to proceed).
12. Create line(s) for services as appropriate.
   a. Enter the item description as desired.
   b. Enter Price & Quantity:
      i. Price: equal to the amount you plan to spend for the PO duration
      ii. Quantity: $1 – *Note: quantity should always equal 1*
   c. **Search for your Category Code(s).** Type “AUX_CHEM” into the Category field & select the magnifying glass to search for the category code. It is very important that you select the appropriate internal category code.
      i. For this requisition, choose from the following Category Codes as shown below based upon the vendor you entered above.

13. When ready, select “Add to Cart” at the bottom of the page.

14. You will see a screen for a new, blank line. Create additional lines as needed for other category codes for this auxiliary. Please group all activity per category code onto one line versus spreading it out over multiple lines when the category code is the same unless you are adding multiple budget combos in the same category code. **Note: projects must be on their own requisitions.**

15. When lines for all applicable goods/services have been added & you are ready to check out, select “Checkout” at the top of the page:
