

Annual Unrelated Business Income Questionnaire

All tax exempt organizations and nonexempt charitable trusts, including independent colleges, universities and hospitals exempt under section 501(c)(3) of the Internal Revenue Code (IRC) are required to file IRS Form 990-T, "Exempt Organizations Business Income Tax Return" if they have gross income from an unrelated trade or business of \$1,000 or more. The following instructions were prepared by the office of Tax & Compliance to assist departments in the identification of unrelated business activities as defined by the IRC, carried on at Florida State University (FSU). Activities which are determined to produce unrelated business income (UBI) will be included in FSU's Form 990-T, "Exempt Organization Business Income Tax Return," for submission to the Internal Revenue Service (IRS).

This questionnaire provides the basis for establishing whether or not an activity is an unrelated trade or business. The department administrator must complete the questionnaire for all activities within his/her domain. This questionnaire is not intended to discourage or eliminate revenue-generating activities. The office of Tax & Compliance will review each activity to determine if any exclusions apply. This determination will be based on the facts presented. Any change in mode or scope of the activity's operations will require a new Annual Unrelated Business Income Questionnaire be submitted by the department, as different facts may change the determination.
