

PAYMENTS

THE WAY WE PAY CERTAIN AWARDS IS CHANGING

Payments for academics, research, competition, fellowships, and prizes (many of which were formally known as "stipends") will now be routed through the Student Payment Committee prior to being released to you. This review allows the University to ensure that your awards are reported appropriately for tax purposes, and that they are accurately reflected in your financial aid package, if necessary.

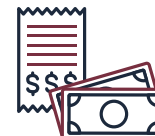

What Does This Mean For You?

Your payment will be disbursed by Student Business Services. If you are an International Student, your payment may be disbursed by Payroll Services.

You will need to ensure that your refund bank account is up to date with Student Business Services.

Unless otherwise specified, your payment will be applied to any outstanding charges on your MyFSU account before being refunded.
